

BIOTRONIK Satellite Symposium EHRA 2020

Monday, March 30
12:45-13:45

Room Coumel, Level 0

“No Pain, No Gain” – Do We Still Need an Atrial Lead for Atrial Sensing?

Chairpersons:

Larry Chinitz (New York, US), Béla Merkely (Budapest, HU)

12:45 - Béla Merkely

Introduction to “No pain, no gain” – Do we still need an atrial lead for atrial sensing?

12:50 - Mark Richards (Toledo, US)

My ICD patient has no previous history of AF. Should I still go for a device with an atrial lead? – Learnings from the SENSE trial

13:05 - Gerhard Hindricks (Leipzig, Germany)

Talking “real-life”: How to monitor and manage patient’s AF-related events without an extra atrial lead - Learnings from the MATRIX trial

13:20 - Mauro Biffi (Bologna, Italy)

Less is more – Can we achieve cardiac resynchronization with 2 leads only?

13:35 - Larry Chinitz

Wrap-up of “No pain, no gain” – Do we still need an atrial lead for atrial sensing?
